Re: Margaret Eaton School.

The writer had a discussion with Miss Somers with regard to continuing the use of the name, "The Margaret Eaton School" for the coming year; also with regard to the using up of the balance which stands to the credit of the School of approximately \$1500, representing their net profit over a period of two years. Miss Somers stated that she felt that some of her teachers were underpaid and that she would like very much to give them increases.

The writer discussed this matter with Mr. J.A. Livingstone who, for several years, has been watching the affairs of the Margaret Eaton School. Mr. Livingstone agreed with the writer that in view of the success achieved by the school since Miss Somers assumed control, there could be no risk in her continuing the use of the name for the coming year and also that as Miss Somers is now on her own and not depending upon the Company to make good her ^{frat} decisions, she has an equal right to make use of any surplus in the way which seems best to her.

Miss Somers was notified to this effect and it was suggested to her that rather than putting through salary increases which might result in deficits, it might be wise for her to allow the salaries to remain as they are and to award bonuses at the end of the year according to the results at the end of that year.

Dear Mr. Lewis:

I am enclosing the first two pages of the September School News Letter which Miss Layton sends out quarterly to the graduates of the school. This will give you an idea of the success we have had in obtaining positions for our graduates this year.

The enrolment this fall shows a considerable increase over last year's; fifty-two students as against thirty-four of last year. We feel encouraged in that this seems to show, as well as the larger number of graduates placed in positions, that the school is filling a definite need in the Dominion. The students come from every part of Canada, - from Sydney and Halifax, Nova Scotia to Victoria and Vancouver, British Columbia. The positions filled also, are located from Nova Scotia to British Columbia.

Although I am afraid I am very tardy in sending you these figures, I believe that you and Mr. Eaton may be interested in seeing them.

Very sincerely yours,

Florence A. Somers

I notice that the Theatre of Action is again booked for Margaret Eaton Hall. Do you not think it would be well before booking this group, which is openly a communistic organization, to read over the play they propose doing and decide whether or not it is likely to cause trouble.

In connection with your memo of November 17th, re Theatre of Action in Margaret Eaton Hall, at the present time this group does not get very large houses; 250 would be the average attendance. They are only looking for publicity, and if we were to make an attempt to keep them out of the Hall, it might be the one spark they need to light the bonfire. We shall, however, endeavour to find out early in the game, the play they are to produce, and if at all possible procure a copy of it so that certain lines can be changed, if thought advisable to do so. To date, they have been fairly harmless and reaching only their own followers, but cancelling the Hall or causing them to move to another location, would naturally incite public interest and bring us into the spotlight as far as certain nationalities were concerned.

We shall deal with this matter as tactfully as possible, and endeavour to keep criticism from our doors.
